I really didn't know much about the Rayes Boiler design when I first heard about it. I was amazed to see that compact size of a boiler do such a tremendous job. I entrusted your company with installing your energy-saving Rayes Boiler in my 20 unit building this past year. I can't say enough good things about Northshore Welding & Boiler Repair. I am really thankful to your company for your excellent service. It's been a great experience. You have saved me over half on my gas bill!! Thank you again for a great job.

Sincerely,

Ramo Procevic
